### **DETAILED ACTION**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin M. Mason on August 17, 2007.

As to claim 1, line 10, the phrase "yielding the detected symbol" replaces "yielding a detected symbol."

As to claim 4, line 10, "yielding the detected symbol" replaces "yielding a detected symbol."

### ***Allowable Subject Matter***

Claims 1, 3-4, and 6 are allowed. The following is an examiner's statement of reasons for allowance:

As to claims 1 and 3, the prior art of record fails to disclose generating a correction signal on the basis of the detected symbol convolved with the channel impulse response, wherein the correction signal is subtracted from the part of the received signal which succeeds the part of the received signal corresponding to the detected symbol for suppressing the ISI (intersymbol interference) effect.

As to claims 4 and 6, the prior art of record fails to disclose, generating a correction signal on the basis of the detected symbol, wherein the correction signal is subtracted from the part of filter signal which succeeds the part of the filter signal corresponding to the detected symbol for suppressing the ISI (intersymbol interference) effect.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
